

**Do you post on WhatsApp Status
and get very few views?**

**Or people view, ask “How much?”—
and disappear?**

I use this system in Mantajobs.

These same WhatsApp principles helped me land projects worth up to ₦10 million through WhatsApp Status.

Seyi · Founder, Copiwrite & Mantajobs

IT MAY NOT BE YOUR PRODUCT.

Your sales chain may be broken.

And you may not know where.

People love to buy.

**But they hate feeling
advertised to.**

Available.	₦20,000.
Buy now.	Patronize me.

Your Status has become a digital price list.

01

**Earn attention before
you ask for money.**

Contacts $\neq$ Attention

Having their number does not mean you have their interest.

IGNORED

**“Face cream available —
₱12,500.”**

KEEP WATCHING

**“If your face becomes oily every
afternoon, your cream may not be
the real problem.”**

Fewer posts. More intention.

Make every post earn the next tap.

02

**Enter the
conversation already
in your customer's
head.**

ABOUT YOUR STOCK

“New stock available.”

ABOUT THEIR PROBLEM

“3 mistakes that can make an expensive outfit look cheap.”

STOP ASKING:

~~“How can I advertise today?”~~

Ask what your customer already wants to understand, avoid or achieve.

03

**Give people enough
evidence to trust you.**

Clear profile

Genuine proof

Useful teaching

**Professional
communication**

~~“Wait, I am coming.”~~

“Let me confirm that for you.”

~~“We don't have it.”~~

“I can recommend a similar option.”

“With the help I received, Nita Watches has made over ₦2 million in jewellery sales through WhatsApp—even without a physical store.”

**Benita**

Nita Watches · Port Harcourt

₦2M+

WhatsApp sales

“Since I started using this WhatsApp system for my cooked-food business, I now get about 50 orders every week.”

**Olayemi**

Food business · Ondo State

50 orders

Every week

04

**Sell the change.
Not only the product.**

NOW

The current situation

NEXT

The desired situation

People buy the movement between the two.

BUYER ONE

**“I need something
affordable.”**

BUYER TWO

**“I want to feel confident at
Saturday's wedding.”**

05

**Stop losing people
after they show
interest.**

“How much?”

Price sent

Silence.

Comparing options

Still unsure

Doesn't see the value

Got distracted

Has an objection

~~“Hello ma.”~~

~~“Are you there ma?”~~

**Useful information.
Relevant proof.
An answered objection.**

Give them a reason to reopen the conversation.

Information → Implementation

Knowing is not the same as knowing what to do next.

What should I post first?

What comes next?

What do I say after “How much?”

When should I follow up?

WhatsApp Views-to-Sales

A step-by-step diagnosis and implementation system.
