2. Install the TikTok Pixel (Optional but Recommended)

The step is optional, it is recommended if you have a website for your business. The TikTok Pixel helps you track what people do after clicking your advertisement, such as viewing a product, adding it to cart or making a purchase.

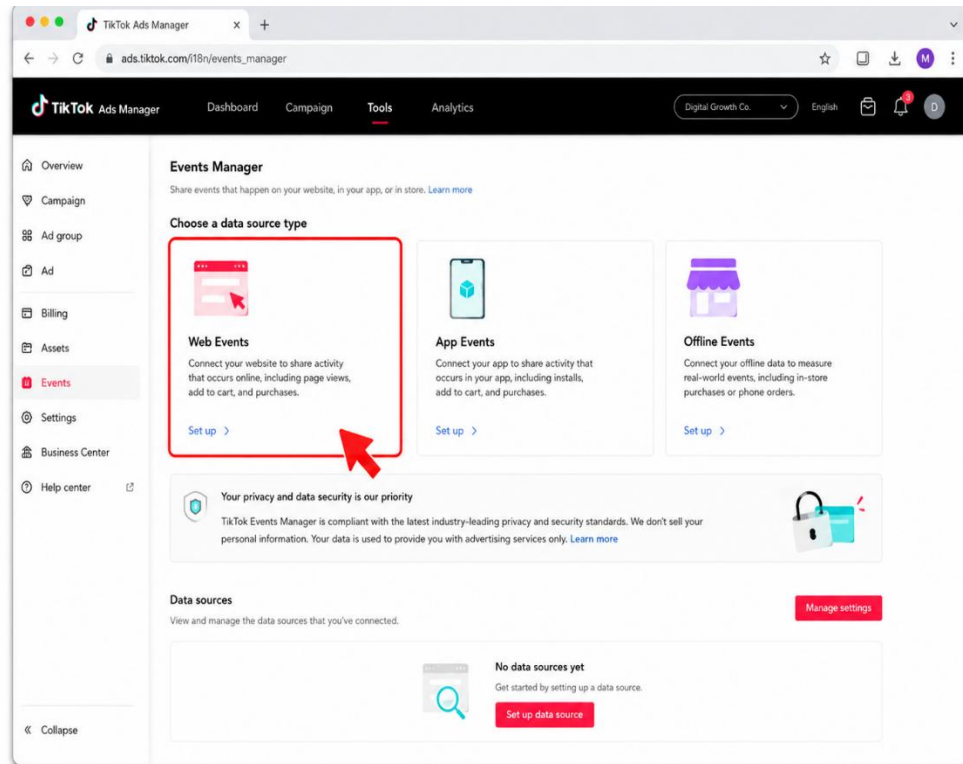

Step 1: After your account has successfully reviewed, click the **Tools** button on your dashboard below

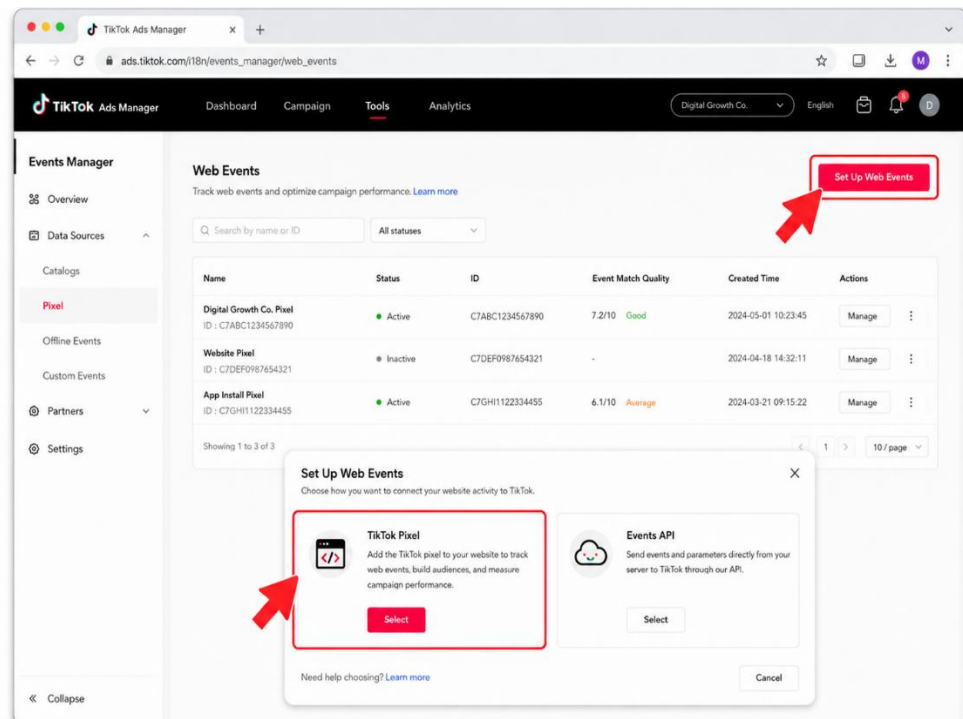

Step 2: select **Events Manager** in the drop down.

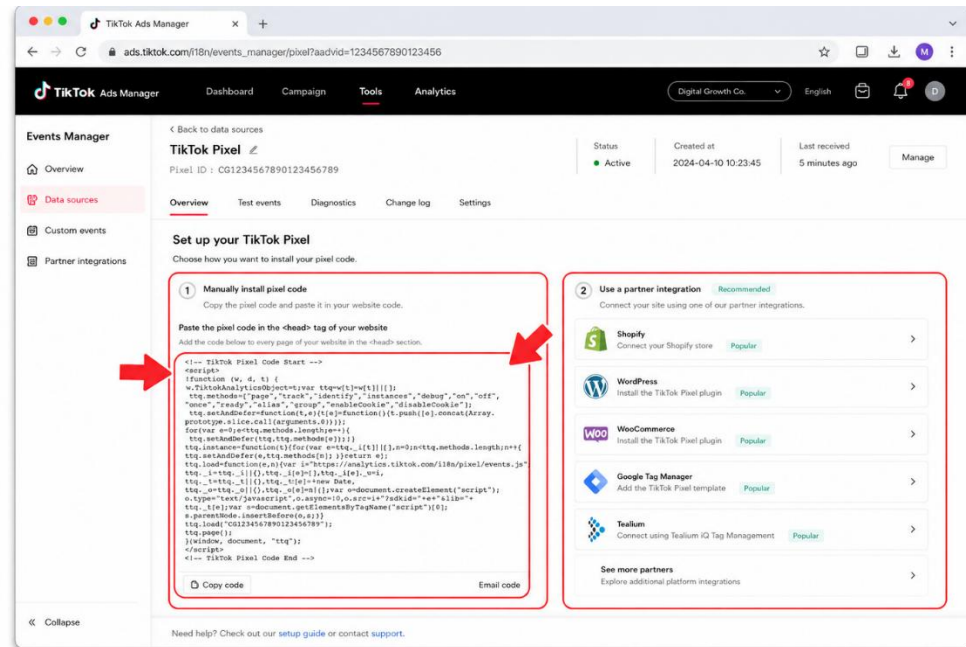

Step 3: Click on either **Web Events**, **App Events** or **Offline Events**, depending on your source data

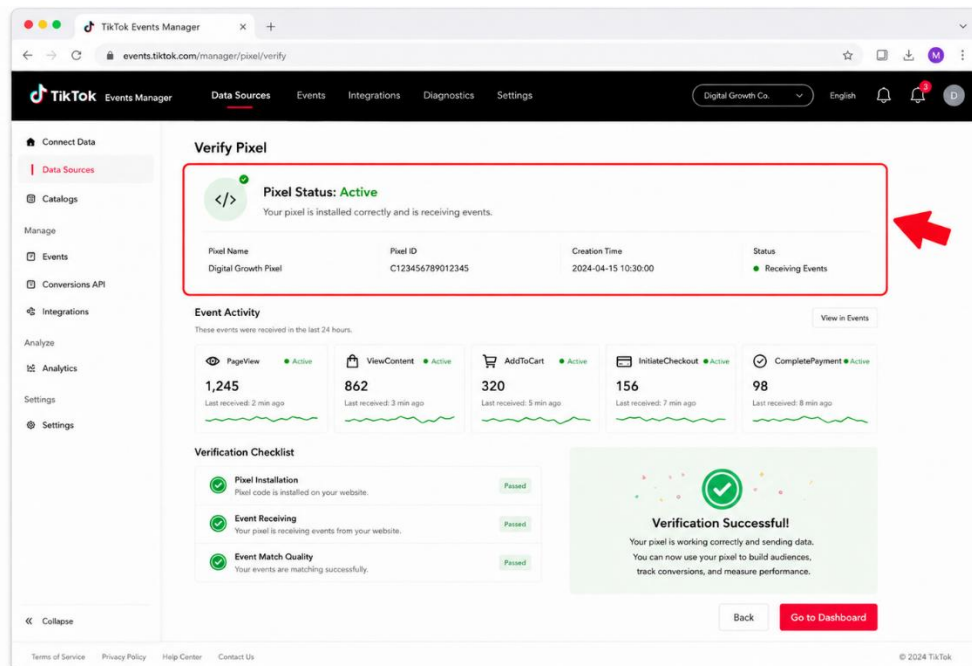

Step 4: Click on set up **Set up Web Events**, and select TikTok

Step 5: Copy your pixel code and add it to your website codes or use one of the partner Integrations (Shopify, WordPress, WooCommerce) to track conversions and optimize delivery.

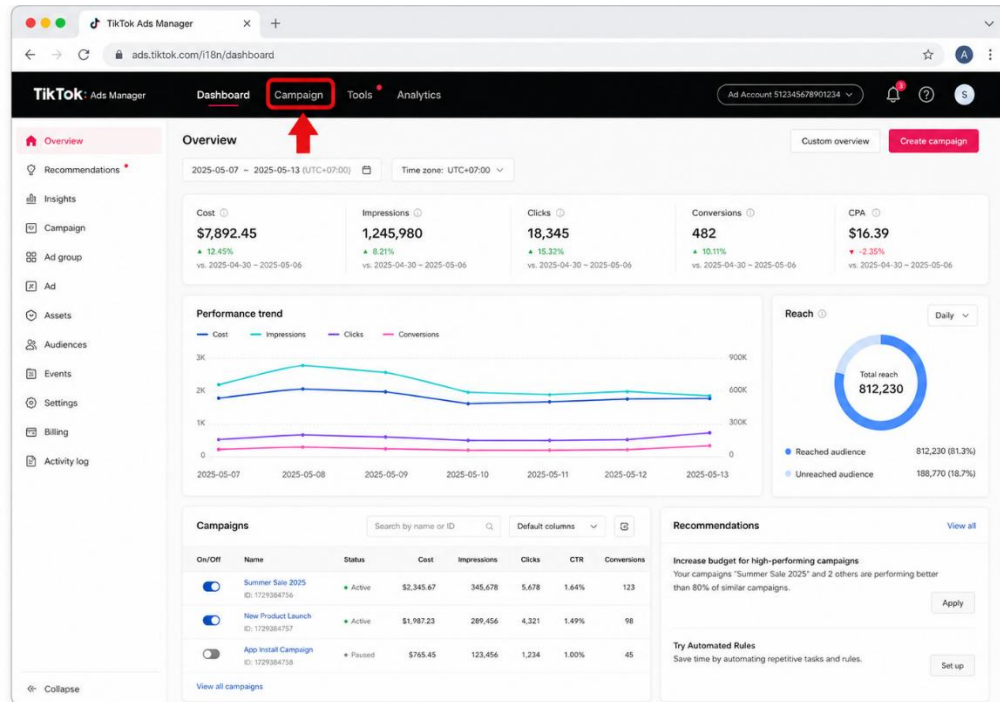

Step 6: Once your Pixel verification, you can start tracking conversions and optimize delivery

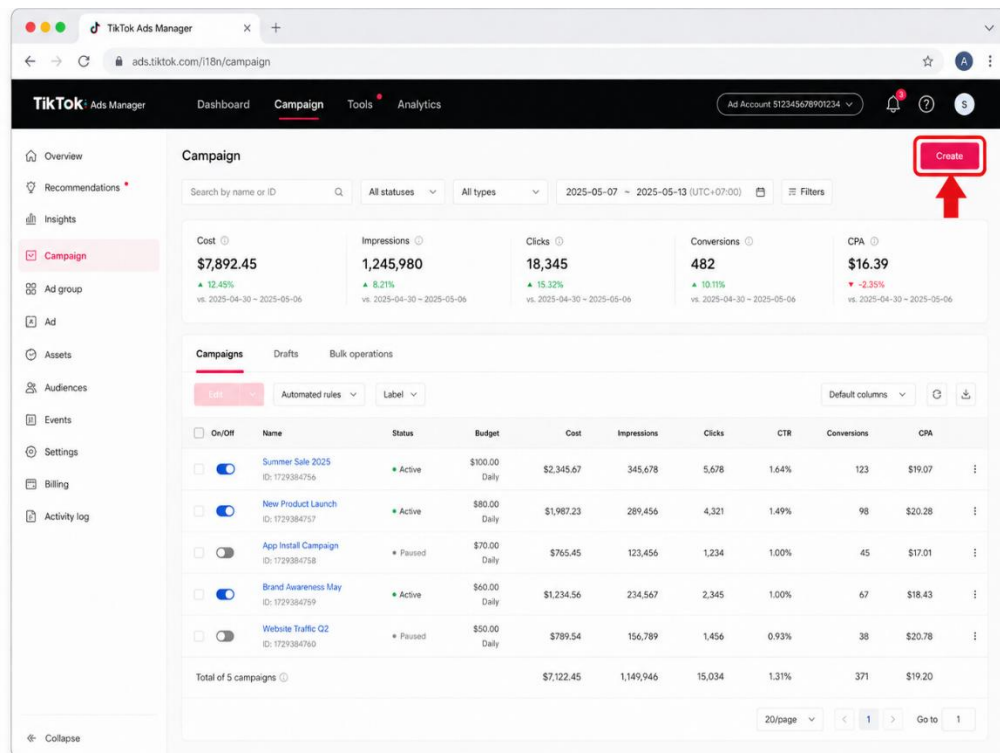

3. Set Up the Campaign Level

Step 1: Click on Campaign

Step 2: Click on Create

Step 3: set your primary Advertising Objective (**Awareness, Consideration, Conversion**). , Then select **Next**.
